HOW TO INSTALL FORUM LIKE NARIALAND WITH PHPBB

Get a FREE phpBB installation with www.TheExpertHost.com Package!

To start the installation process, please log in to your your cPanel. The cPanel Button is located in your customer area under Manage Account. Once in **cPanel**, look for the smiling face icon of Fantastico (😊) and click it.

Check out the phpBB installation video tutorial:

phpBB Installation Detailed Tutorial

Once logged into Fantastico, please select the **phpBB** link from the list of scripts that appears to the left.

A short description of the board will appear. Locate the **New installation** link and click that.

The first thing to select is the domain name you would like to install the board to (this is only applicable in case you have more than one domain name, pointed to your account). The Install in directory box can be left empty in case you want to have your forum as the starting page for your website (<http://www.yourdomain.com/>); you can specify a directory, e.g **forum**, in case you want to have your phpBB installed at <http://www.yourdomain.com/forum>.

Next, please select the username and the password for the forum administrator (password can be changed later on from the forum configuration panel).

When filling the **Site name** and the **Short description** fields, please remember that those will appear in the header of each page of your forum. Do not forget to set the administrative e-mail address to the desired one, and select the working language of the board.

Base configuration

Site name:

Short description:

E-Mail signature (will be attached to all emails sent by the forum):

Admin e-mail (your email address):

Preferred Language:

When done entering the information, please click the **Install phpBB2** button. The next page will confirm the installation details. Please proceed by clicking **Finish installation**.

You will be taken to a page with the addresses of the forum and the administrative panel of the board.

Please bookmark the addresses of the forum and the administrative panel, as you will be visiting them frequently.

You need a username and a password to enter the admin area. Your username is **admin**. Your password is **password**. The full URL to the admin area (**Bookmark this!**): <http://ganchev.net/forum/admin/>

The full URL to this installation of **phpBB2**: <http://ganchev.net/forum/>

Good job! You have successfully installed your phpBB forum application!
